

FIRE - preview : in 2007

Monday, 16 April 2007

Last Updated Sunday, 01 June 2008

In 2007 this gallery showed a preview of the game FIRE featuring modified images... Fire 1.1 with theme...

In a past poll, you replied favourably to our suggestion of a screen capture for FIRE v1.1 modified. Thank you for your interest!

So here is in return a preview of a next update for the game FIRE, though without showing the improvements of the new engine of the game as version 1.2.

The replacement of the media pictures will only become effective on versions 1.3 and more. In the meantime you can see again the rendering with the old engine of FIRE version 1.1, in the related Gallery section.

My acknowledgements to the artists whom I borrowed some photos on that occasion! For more detailed information about the future of FIRE, you can just refer to the Developments item.
