

# FIRE - download the v1.2.1 for Windows 95/98/Me/NT/2K/XP/Vista

Monday, 02 June 2008

Last Updated Friday, 06 June 2008

Version 1.2.1 - Vista compatible.

(Improved rendering. Same required hardware, media files and levels as for Fire 1.1)      Fire 1.2.1 Standard      7z

File :	Size :	CRC :	Fire_121_En_7z.exe	12.9 MB (13'607'951)	1CDC2C4D	Rar	File :	Size :
CRC :	Fire_121_En_rar.exe	12.6 MB (13'310'016)	E50FE0AC	Uha	File :	Size :	CRC :	
Fire_121_En_uha.exe	11.8 MB (12'409'884)	8DB7EF8B	Fire 1.2.1 Light*	7z	File :	Size :	CRC :	
Fire_121_Light_En_7z.exe	2.75 MB (2'893'523)	D38D8555	Rar	File :	Size :	CRC :		
Fire_121_Light_En_rar.exe	2.76 MB (2'901'001)	820C1877	Uha	File :	Size :	CRC :		
Fire_121_Light_En_uha.exe	2.70 MB (2'841'605)	BABFF21B						

Choose the format you know above, or by default the smallest archive of the three (knowing that the decompression takes more time as Uha).

The CRC-32 requires a third party software, and permits to check your download integrity (unmodified and virus-free file).

\* The Light version has no music; It's the only difference with the full version. These musics will be soon replaced by their very long version, provided the rightful owners allow it &mdash; it's under heavy processing. This, in order to face the forthcoming levels update, and its increased number of hours in the game.

In case of update:

In order to keep your old levels and/or old records,

- a. copy the content of your old Levels folder (all your \*.niv files) to the new one,
- b. copy your file (Fire)\Ini\Niveaux.ini to the new one so that it is overwritten: (Fire)\F\Niveaux.ini.
